

Hot Stamping

This process uses a metal plate in combination with heat, pressure & duration to transfer the foil to the surface of the product, leaving the desired impression. The plate is kept on file for future use. Foil colors can be metallic, matte, or gloss. Each foil has a different backing to adhere to different substrates. Printing colors are limited to available foil from our suppliers. If a specific PMS color is desired, screen printing is the better option. This is the only method to obtain a true metallic image.

2 Sided pricing only applies when same artwork is printed on both sides, use 1c/1s pricing x 2 if not the same.
Not all foil colors will adhere to all product types. Additional Foil Colors available at an upcharge.

Pricing per 1,000 pieces (or Minimum Charge if less than 1,000)
