

# Screen Printing

In this method a screen is used instead of a plate. Ink is pushed through a fine mesh screen to transfer the desired image to the product. It is our most versatile process because of its gentle and precise nature. We can match any PMS ink color when printed on a white substrate. When ordering a colored substrate, please be aware that the background will effect the end result and change the color. Therefore, we suggest you request an ink draw down to assure the color meets your customer's expectations. Multiple colors can be accomplished on a wide variety of products. We use UV ink which creates a glossy finish. A matte additive can be requested to remove the gloss; or a metallic powder can be added to the ink to create a brushed metallic look. Screens must be made on every order, repeat or new as the screen is reclaimed and used again. The film used to make the screens is stored in the file to be used on future orders.

## Size Changes are FREE!

Combine multiple sizes of the same style of product to accumulate toward the total quantity printed and use that number to determine print charges. This assumes the same screen and ink color are being used on the entire quantity. Same style refers to categories of like product such as Shopping Bags, Sophie Shoppers, Jewelry Boxes, Gift Boxes, Pillow Packs, etc.
