Our Flora-Satin and Sparkalene ribbon are the perfect width for the bow machines and therefore you can be free of star bows with flipped loops. Our ribbons are embossed, which helps the machine grip and pull the ribbon properly. The cores are made to fit the machines so no adapters are needed. These ribbons can also be used on the S-13 pom bow machine, however if you prefer more fabric feel and an easier pull when opening, try satin acetate which can be found on page 74.
