

Flexo Printing

A rotary system using water based ink and a flexible plate which is mounted directly onto the printing cylinder. The plate is kept on file for future use. It is our fastest post-printing process and quite economical. Product options are limited to paper finishes for ink absorption. Product with handles must be fixed like that of a twisted paper handled shopping bag. Bags with rope handles will not run on this type of printing machine. Single color prints are best suited to this process. When printing multiple colors, registration cannot be critical due to machine variances.

Ink color will vary due to absorption and texture of surface being printed.

Custom Ink Colors Available

Size Changes are FREE!

Combine multiple sizes within the same style of product to accumulate toward the total quantity printed and use that number to determine print charges. To combine, same plate and ink color are to be used on the entire quantity. These are examples of different styles of product; Shopping Bags, Gift Boxes, Gable Boxes, Merchandise Bags etc. Different styles do not combine for quantity.
